

The Henry Beaufort School Remote Access – Instructions for Android / Kindle

Please contact remote@beaufort.hants.sch.uk if you have any issues.

To install VmWare Horizon Client on Android / Kindle (only needs to be done once)

Please note screenshots / instructions are for Android but the Kindle is very similar.

1. Find the **Play Store** (or Kindle app store) icon and open it (figure 1).
2. Type **“VMware Client”** in the search box it will then display the app you need (figure 2).
3. When the app is displayed press on **“VMware Horizon View Client”** it will then take you to the apps installer (figure 3).
4. Press on the **Install** button and the app will install (figure 4). This is a free app.
