YEAR 11

Dear Parents

GCSE Geography Revision

With well over half of the GCSE Geography course completed it is important for your son/daughter to begin planning for their final exams in the summer. With this in mind I have outlined some information below regarding revision. Effective revision starts early and is ongoing throughout Year 11.

- 1) Revision guides relevant to the syllabus studied (OCR B 9-1) are available from the Finance Office for £3.25.
- 2) The 'Anki' app for phones and tablets has been showcased to the students in lessons. This allows them access to a series of flashcards covering the course so far. This is a free app and the 'deck of cards' needed are also freely available (OCR B GCSE Geography).
- 3) The Geography Department are running a weekly revision clinic with topics covered attached. We will work with students in identifying the key sessions to attend and encourage all students to come to as many of these sessions as possible. For students who are not making enough progress we will expect to see them regularly and will be in contact with you to discuss this.

We look forward to working with your son/daughter over this coming year. This cohort progressed well last year and exhibited a positive attitude so we are optimistic for success next summer. If you would like to discuss any aspect of your son/daughter's progress then do not hesitate to contact either myself, Mrs Taggart or Mrs McArthur at the school.

Yours sincerely

J Tucker
