Dear Parent,

Year 7 - Science

Last week the Science department set its first assessment piece of work for students to complete and send back to their teacher. To this date your son/daughter has not completed or returned the assessment found in the week 4 folder of Science.

We understand that there are many difficulties and barriers to learning at this time, and that finding and completing work can be difficult.

All subjects have mini assessments which will need completing and sending back to the teachers to monitor the learning of the students at this time.

If there is any support we can give you to complete these assessments, please email your son/daughters Science department teacher and they are there to give advice and support in whatever way they can.

If you are unsure of your teachers email address and would like signposting please email Mr Naisbitt at, charlie.naisbitt@staff.beaufort.hants.sch.uk

Many thanks

Mr Webber
Teacher of Science
