

4 June 2020

Dear Parents

Year 8 Assessments

I hope you are all well and that you managed to have a break over half term. I think that Feel-good Friday was well deserved and I have seen some lovely pictures and videos of what the students got up to.

I have been really impressed with the way in which the students in Year 8 have risen to the challenges of lockdown and especially to the home learning that they have been doing. I hope this positive attitude continues this term but I understand that it is sometimes hard to keep the motivation going.

To make things more manageable during this half term there will only be assessments in the core subjects of English, Maths and Science. This should make it easier for the students to plan their work and ensure that assessments are submitted on time.

I have collated the dates of these so that both your child and yourselves know when they are expected. I hope this will help.

SUBJECT	TITLE	DATE (to be submitted by)
English	Creative task based on image stimulus	By Friday 26 th June (week 11)
Maths	Maths Test on Maths Watch. Students who get paper copies will have these sent.	By Friday 19 th June (week 10)
Science	Science task on Kerboodle. Students who get a paper copy will have it sent.	By Friday 19 th June (week 10)

As always please contact your child's teacher, tutor or myself if there is anything that we can do to help.

With my very best wishes

Mrs Taggart
Head of Year 8
