

Here are some examples of miniature sculptures made from boxes, created by various Artists which inspired the box Art you saw in our video clip. The boxes here and those created by our students, combine various images and written or printed words which have been chosen carefully to create a personal mini sculpture.

### KIM WELLING

### SARAH BRIDGLAND

### KAIJA RANTAKARI

### TASK:

Find a small cardboard box and fill it with small drawings, objects and photographs that you make to represent you. You could choose lines from a favourite book, or a story you've written yourself. You may want to include spoken lines from your favourite film or TV programme. Write or type these words, thinking carefully about the styles of lettering you use.

Combine these written pieces with your own imaginative artwork depicting your favourite hobbies, pets, people or places. You could also find some small special objects such as a button, pebble or a small lucky charm to keep inside your box.

Next, decorate the outside with your own initials or a symbol of your own design. You can use whatever materials and colours you like. Enjoy experimenting and putting things together to create a unique keepsake that represents you at this moment in time.
