

24 September 2020

Dear Parents

Year 10 Parent Information

I am pleased to welcome Year 10 back in to school. The students have started the term with a positive and mature approach to their GCSE courses and have impressed a number of staff, including myself.

The next two years at school will be the most challenging and exciting period of time that your child will have experienced in education. As Head of Year 10, I strive to support all students, this includes giving you the right information to best support at home. With this in mind, I would like to invite both yourself and your child to watch our virtual Year 10 Information Evening, which will be available on the school website from 3pm on Wednesday 30<sup>th</sup> September.

The presentation includes information on the plans for the academic year, Work Experience, exams, revision and how best to support your child. There will also be some information from the English and Maths department regarding their GCSE courses. Above all, it will give you a real insight into the journey that your child will be on over the next two years.

I hope that you will all be able to access this from home. Please do not hesitate to contact me if you have any questions after the presentation.

Yours sincerely

Mrs Holly Briggs  
Head of Year 10  
Senior Teacher i/c Student Life Chances
