

5 March 2021

Dear Parents,

### Testing Kits for Households

We have received communication, as part of the daily information from the DfE to schools, which I hope will clarify the situation around testing kits for households.

These will not be distributed by schools. Schools are only being provided with enough to test students and staff.

We have been asked to pass on the following information to you.

Kind regards,

Miss Hearle  
Headteacher

## **Asymptomatic testing information for parents and adults in households with children at school or college**

Please share the information below with your parent networks to help answer any questions they may have.

Undertaking regular, rapid coronavirus (COVID-19) testing helps reduce transmission of the virus. Parents and other adults in households with children at school or college, who do not have symptoms, can now access regular, rapid coronavirus (COVID-19) testing. This includes childcare and support bubbles.

Tests are fast, easy and completely free. There are [different ways](#) for a household, childcare or support bubble to collect their test to take at home, twice-weekly:

- through your employer, if they offer testing to employees

- by collecting a home test kit from a local test site – anyone aged 18 or over can collect 2 packs of 7 tests
- by ordering a home test kit online – please do not order online if you can access testing through other routes, this frees up home delivery for those who need it most

If you have any queries about the tests, and you live in England, please call 119 (free from mobiles and landlines). Lines are open every day from 7am to 11pm.

Testing is voluntary, but strongly recommended to all who are eligible. Alongside the vaccine, washing hands, wearing face coverings, and maintaining social distancing, rapid testing plays a vital role in reducing transmission rates. Getting into the habit of regular testing as part of our everyday lives will help us all to play our part and do what we can to protect each other.
