OTHER INFORMATION

Sparsholt College's 14 – 16 programme - applications are now open for September 2023!

Our 14 – 16 programme offers students one day a week on a work-related skills course. This means that your students learn the theory and then put what they have learnt in the classroom into practice through practical classes, therefore developing useful employment skills. Students benefit from the programme by doing something practical whilst learning new skills and gaining knowledge. This should help your students make important decisions about their future career; to go on to further education, work-based training, or employment.

The course runs through Years 10 and 11 and students finish in time for them to revise for their GCSE exams.

Within the programme the following courses are offered –

Animal Management

Equine Studies

Environment & Countryside Skills

Motor Vehicle

For further information please visit - [14-16 Programme - Sparsholt College Hampshire](#).

The programme application form follows this page. Applications need to be completed and returned to us ideally by the end of April. Interviews will be held on the morning of Tuesday 20 June and schools will be informed of individual timings for the interviews a week or two beforehand.
