

Revision Tasks

Subject/ Task 3:

Mr Browns knowledge organisers
You know more than you realise!

This KO is all
about:

Surface finishes

Name a surface finish
that you have applied to
a project.

Why did you put a
surface finish on it?

What surface finish could you apply
to wood?

What does it do?

What surface finish could you apply
to metal?

What does it do?

What surface finish could you apply
to plastic?

What does it do?

What surface finish could you apply
to fabrics?

What does it do?

Choose one of the three main materials used in the play area shown.
Evaluate one of the surface finishes used considering the aesthetics of
the product.

Choose one of the three main materials used in the play area shown.
Explain what key considerations the designer of the play area would
have to take into account when choosing a surface finish for this
material.
