

	Government 	Louis Pasteur 	Germ 
Cholera 	John Snow 	WAR 	Surgery 
Florence Nightingale 	Edwin Chadwick 	New Ideas 	Science and Technology 
Edward Jenner 		=	+

Teachers' Note:

Ask the students to create a number of visual equations using the pictures (and any they can make themselves):

- How did the understanding of causes of disease change in the 18th and 19th centuries?
- Why did medicine progress during the Industrial period?
- How did Pasteur's work on Germ Theory impact medical knowledge?
