### WHAT IS A DEGREE APPRENTICESHIP?

#### Frequently Asked Questions

**What is a degree apprenticeship?**  
Degree apprenticeships are exactly what they say - an apprenticeship programme that leads to a full degree-level qualification. This could be a bachelor's or master's degree, or an equivalent professional qualification.

**Who are they for?**  
Degree apprenticeships can be for new recruits into apprenticeships (for example, those leaving school) or they can be for an existing employee who is looking to upskill or retrain in their job role.

**How long do they take to complete?**  
Degree apprenticeships will typically take between 2 - 5 years to complete, depending on the level and programme. The apprentice will split their time between working and studying with a training provider.

**How much do they cost?**  
The apprentice will not be required to pay towards the cost of the training, this will be funded by the employer and/or government. The apprentice will earn a salary throughout their apprenticeship, which means they are being paid to learn and will not incur student fees.

**How do you find a degree apprenticeship?**  
Degree apprenticeships are still relatively new and the number of vacancies is expected to increase each year. Top places to look include:

**Find an Apprenticeship**  
[www.gov.uk/apply-apprenticeship](https://www.gov.uk/apply-apprenticeship). This is the government website where you can set up an account to search, apply and receive alerts for different apprenticeship vacancies.

**Higher & Degree Listing**  
[www.gov.uk/government/publications/higher-and-degree-apprenticeships](https://www.gov.uk/government/publications/higher-and-degree-apprenticeships). Each year, a listing of higher and degree apprenticeship vacancies is published on the government website containing a wide selection of opportunities and links to apply.

### APPRENTICESHIP LEVELS EXPLAINED

Ranging from intermediate to degree level

Amazing Apprenticeships

Apprenticeship levels range from level 2 (intermediate) through to level 7 (master's level) in more than 1,500 different job roles.

There are four types of apprenticeship

- Intermediate (level 2)
- Advanced (level 3)
- Higher (levels 4 and above)
- Degree (levels 6 - 7)

**Intermediate apprenticeships**

Intermediate apprenticeships are typically considered to be the same level as five GCSE passes.

Intermediate apprenticeships are a fantastic way to get started with your career in an entry level role within an organisation.

**Advanced apprenticeships**

Advanced apprenticeships are considered to be the same level as two or three A level passes. Many individuals who have completed their A levels or other level 3 qualifications will undertake an advanced apprenticeship as it will enable them to gain experience in the workplace and undertake a variety of different tasks.

**Higher apprenticeships**

Higher apprenticeships include qualifications at levels 4 and above. They can be suitable for those looking to progress from level 3 qualifications, including advanced apprenticeships.

**Degree apprenticeships**

Degree apprenticeships are offered by universities and other higher education providers. They contain either a full degree or degree-level qualification and go up to master's level (which is post-graduate).

**Which level is right for you?**

The type of apprenticeship undertaken will depend on both the needs of the employer and the job role as well as the apprentice, their previous experience and qualifications held.

Your training provider will also be able to guide you as to the most appropriate level for you.
